MEMORANDUM FOR: Director, Intelligence Community Staff

VIA: Deputy Director, Intelligence Community Staff  
Director, Community Counterintelligence and  
Security Countermeasures Office

25X1 FROM: [REDACTED]  
Director, Planning and Policy Office

25X1 SUBJECT: Intelligence Support to Federal Emergency Management  
Agency [REDACTED]

25X1 1. Attached for your signature is a memorandum forwarding an interim DCI response to Lieutenant General Julius Becton, USA (Ret), FEMA Director, regarding intelligence support. PPO and CCISCMO personnel have met with General Becton, his Deputy, and the FEMA Security Officer during the last several weeks to better scope the intelligence support requirements issue which was raised during the 28 March 1988 meeting between Judge Webster and LTG Becton. [REDACTED]

25X1 2. The current level of intelligence support to FEMA is adversely affected by: 1) lack of FEMA staff depth of knowledge on intelligence to adequately define the support needed, 2) acquisition of intelligence gained on a piecemeal basis, and 3) no formal identification of the essential elements of intelligence information required. [REDACTED]

25X1 3. As a result of our discussions, FEMA will develop and forward a formal request to ICS detailing the full scope of intelligence support LTG Becton feels is required by his organization. A determination of how best to respond to the FEMA intelligence support requirements will be made upon receipt of data. [REDACTED]

25X1 4. Recommend you sign the memorandum forwarding proposed DCI memorandum to Director, FEMA. [REDACTED]

MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director of Central Intelligence

FROM: Lieutenant General Edward J. Heinz, USAF  
Director, Intelligence Community Staff

25X1 SUBJECT: Intelligence Support to Federal Emergency Management  
Agency (FEMA) [ ]

REFERENCE: DCI Memorandum to D/ICS, dtd 29 March 1988, Subject:  
Meeting with FEMA Director, 28 March 1988

25X1 1. Action Requested: That you sign the attached memorandum to  
Lieutenant General Julius Becton, USA (ret), FEMA Director as a follow up to  
your meeting with him on 28 March 1988 (see Reference). [ ]

2. Discussion:

- o Intelligence Community Staff personnel have met during the past  
several weeks with FEMA personnel to better determine the full range  
of assistance the FEMA Director seeks. Factors affecting FEMA  
dissatisfaction regarding intelligence support include:
  - Lack of FEMA intelligence staff knowledge of how to go about  
obtaining intelligence support.
  - FEMA intelligence staff has never officially registered their  
full range of essential elements of information (EEI), has not  
previously discussed their total requirements with a single  
focal point, nor registered formal statements of intelligence  
interest. [ ]
- o Preliminary meetings were productive; however, much work is still  
required. The Intelligence Community Staff (ICS) will continue to  
work to coordinate and improve intelligence support to FEMA.
  - FEMA is currently in the process of preparing EEI's for delivery  
to ICS--receipt anticipated within two weeks.

25X1  
SECRET [ ]

25X1 SUBJECT: Intelligence Support to Federal Emergency Management Agency  
(FEMA) [redacted]

25X1 -- FEMA participation as a potential intelligence consumer in  
selected interagency groups and DCI committees will be arranged  
and coordinated through the ICS. [redacted]

25X1 o Determination of how best to respond overall to the FEMA intelligence  
support requirements will be made upon receipt of the FEMA data. [redacted]

25X1 o Attached memorandum to LTG Becton closes the loop as a result of the  
28 March meeting and should promote continued FEMA/ICS coordination  
on intelligence support matters. [redacted]

25X1 3. Recommendation: DCI sign the attached memorandum. [redacted]

The Director of Central Intelligence

Washington, D.C. 20505

18 May 1988

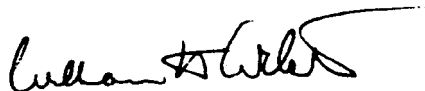

MEMORANDUM FOR: Lieutenant General Julius Becton, USA (ret)  
Director, Federal Emergency Management Agency

25X1 SUBJECT: Assistance on Intelligence Matters [redacted]

25X1 1. The recent meetings between members of our Staffs appear to have produced excellent strides in determining the general characteristics of the FEMA intelligence support requirements. The meetings have been very productive in focusing on the wide range of FEMA mission-related responsibilities which require Intelligence Community support. Continued dialogue should assure specific FEMA interests are incorporated appropriately in the intelligence requirements process. [redacted]

25X1 2. Much work appears still to be required in defining the full scope of FEMA support, however. The working level relationship established to date forms an excellent foundation for the steps ahead necessary to formally consider your prioritized information needs. I understand that your office is currently in the process of preparing a formal request for intelligence support, including specific essential elements of intelligence information, which we can use to most effectively generate Intelligence Community support responsive to your needs. [redacted]

25X1 3. I encourage you to continue to work with the Intelligence Community Staff to formulate your intelligence needs. If there are any additional actions on this matter that you would like to bring to my attention, please let me know. [redacted]

William H. Webster
